Before and After

G'day All,

Welcome to another issue of our newsletter. This quarter we will be showcasing Quarry Face stone, giving you some insight into our matching services and showing you some great projects that have been completed recently.

With the cold weather behind us, hopefully you can get back into your gardens and give them a makeover.

All the best from BRS

Sandstone

The natural material to build your dream...

Product In Profile Basket Range Quarry Face

Quarry Face sandstone is a naturally formed, flat-faced stone, with a wide variety of textures and colours ranging from rich reds, browns and blacks.

As the flagship of our range, Quarry Face has been one of our most popular products because it creates an "old world" cottage feel, without the hard work of having to shape the rough stone.

Although it is generally used as a building product, some creative stonemasons are utilising it in the garden, for edging, fencing or even letterboxes to match the existing house.

If you would like any further information on our Quarry Face product please feel free to contact us or come by the quarry to view our full product range.

Service in Profile Stone Matching

Basket Range quarries have been producing sandstone products in the Adelaide Hills for over 100 years.

If your home is made from sandstone, why not build a letterbox, fence, garage or retaining wall to match?

We have an extensive range of finishes to choose from and can match most existing sandstone houses in Adelaide.

This sandstone addition is sure to add value and make your home stand out from the rest.

For more information or to obtain a quote, please feel free to contact us on (08) 8390 3420. We'd love to hear from you.
